Databases

- SQL Server
- MySQL
- Snowflake

Cloud & DevOps

- Azure
- CI/CD - TeamCity
- Git/GitHub

Messaging & Caching

- RabbitMQ
- Redis

Security

- JWT Authentication
- OAuth 2.0

Testing & Tools

- NUnit, Moq, Autofac
- SSIS

Senior .NET Backend Engineer | 15+ Years' Experience | ASP.NET Core | REST APIs | SQL Server | Enterprise Applications

Recent Technology Experience

- Developed backend services using .NET 8 and ASP.NET Core.
- Built RESTful APIs with JWT Authentication and role-based authorization.
- Implemented Entity Framework Core for data access.
- Designed Microservices-based solutions.
- Integrated RabbitMQ for asynchronous communication.
- Used Redis for caching and performance optimization.
- Configured CI/CD pipelines for automated deployment.
- Worked with Azure services for hosting and deployment.

Recent Projects

Sapient, Gurgaon

Senior Associate – Level 2 | **Jul 2019 – Aug 2023**

- Developed **Sustainable Data Platform** for RBS to consolidate client data from multiple sources using **SSIS** and SQL Server.
- Worked on **Gears**, a reporting web application for handling regional holiday-based feed issues.

Jabong-Myntra (Flipkart Group), Gurgaon

Lead Developer / Senior Software Engineer | **Jul 2013 – Feb 2019**

- Led the development of **Order Details Portal** using AngularJS, Node.js, and MySQL.
- Architected and built **Redressal System** for event-based coupon issuance using ASP.NET Web API and SQL Server.
- Developed **Box Office**, a comprehensive tool for customer support handling returns, exchanges, and order lookups.

SPANCO Ltd., Gurgaon

Senior Software Engineer | **Sep 2005 – Jun 2013**

- Built multiple web and desktop apps for telecom clients like MTNL and BSNL.
- Developed CRM systems, complaint management portals, and inventory tools using **C#, ASP.NET, VB6.o**, and SQL Server.
- Played key roles in **Unified Call Centre** and **Building Management System** projects.
